Toczylowski, Susan	Visteon	E
Trabbic-Pointer, Denise	DuPont	P
VanFleteren, Robert	Fraser Fire Dept.	P
Voss, Gary	TACOM	E
Williams, Rick	Citizen	P
Witulski, Dennis	Sterling Heights Fire Dept.	P
Wolber, Victoria	Macomb County EMD	P

The following guests were present for the meeting: Mary Williams, Loran Tong, Lloyd Miller, Mary Walker, Susan Sanderson, Carl Sites, Mark Fournier.

3. Citizen Participation:

None

4. Approval of Minutes from December 02, 2003 meeting:

Motion by Member Locke, Second by Member VanFleteren to accept the minutes of December 02, 2003. Motion Carried.

5. Administration:

Nothing from Administration

6. Subcommittee Reports:

6a. Executive Committee:

Member Locke gave a report on the Executive Sub-Committee meeting of January 06, 2004. Key items were the approval of the two new plans recently approved by the Haz/Vul Sub-Committee and the approving of the new calendar and meeting location changes.

6b. Hazard/Vulnerability/Risk Committee:

Member Locke gave a report on the Haz/Vul Sub-Committee meeting of January 06, 2003. Key items were the approval of the Chardam Gear and Marshall Fields plans. Member Locke made a motion, seconded by Member Keuhn, to approve the plan for Marshall Fields, Warren. Motion Carried.

Member Locke made a motion, seconded by Member VanFleteren, to approve the plan for Chardam Gear, Sterling Heights. Motion Carried.

6c. Medical Committee:

Member Wolber reported on the following items for Region 2N:

- The "Code Silver" exercise to be conducted at Selfridge ANG Base on Thursday, February 05, 2004.
- A progress report for the planning phase of the exercise at Selfridge ANG Base to be held in September of this year.
- A report on the "Dispensing Sites" within Macomb County and the upcoming inspections and evaluations of those sites.
- A report on the ACC and how more discussion will be necessary before a location is determined.
- PAPR's/PPE equipment purchased under the grant has been received at the Oakland County ME for storage and distribution.

PARANCED OF TODAY

MOTO TO

JOINT VENTURE JOINT VENTURE EXECUSE

6d. Education/Resource Development Committee:

Member Locke reported that new life has been brought to this committee with the request of Member Sue Toczylowski to becoming the chair of this committee. She has contacted the existing members and anyone who is interested in serving may contact Locke.

7. Pending Items of Unfinished Business:

Member Locke gave the report on from the Nomination Committee.

The following were nominated for the position of Vice-Chair:

Susan Toczylowski, Visteon - Accepted

Denise Trabbic-Pointer, DuPont - Accepted

Doyle Burke, Delphi Automotive - Refused

Anthony Kowalski, Macomb Community College - Refused

Three calls were made for additional nominations. Hearing none the nominations were closed.

The following were nominated for the position of Secretary:

Peter Locke, Macomb County OEM - Accepted

Three calls were made for additional nominations. Hearing none the nominations were closed. Elections will be held at the April 06, 2004 meeting.

8. Good of the Order:

- Member Locke reported on the County Sponsored Skywarn Training that will be conducted at Freedom Hill on Tuesday, March 23, 2004 @ 07:00 PM and on Saturday, April 03, 2004 @ 09:00 AM. No pre-registration is necessary. Class is open to all.
- Battalion Chief Mark Fournier of the Warren Fire Department gave a 10-minute presentation on MMRS (Metropolitan Medical Response System).
- Lt. Mark Martinez of the MSP/EMD 2N District informed the group of an upcoming Homeland Security Conference to be held in Grand Rapids on May 5-7, 2004. Information can be found on the MSP web-site.
- Member Wolber reported on the two positions within the County Office of Emergency management that were posted. Information can be found on the county web-site or by going to the Human Resources Department in the Old County Building.
- Member Manor reported on the change of the county web address and need for a change in the email addresses for county employees. Member Locke reported that at the bottom of the agenda the new address was printed.
- Member Williams reported on his availability to assist local fire departments with fire grant writing.

9. Adjournment

Motion by Member Locke, second by Member VanFleteren to adjourn. Motion Carried @ 09:05 AM

MEETING MINUTES FOR MACOMB COUNTY HAZARD MITIGATION PLAN KICK-OFF MEETING

May 27, 2004

Meeting Date: May 20, 2004

Time: 2:00 P.M.

Place: County Building – 1st Floor

10 North Main Street Mount Clemens, MI 48043

SDA Job No.: UI04007.OC

Attendees:

Name	Representing	Phone No.	
	-		
Mr. Peter Locke	Macomb OEM	586-469-5270	
Mr. Mike Sobocinski	MI State Police	517-336-2053	
Mr. Keith Barbieri	Macomb Web Mgr.	586-469-6049	
Mr. Charles Groover	SDA	313-967-4700	
Mr. Scott Wanagat	SDA	313-967-4700	

An Agenda (attached) for the meeting was handed out and the following items were discussed:

Review Contract Scope

Mike Sobocinski informed Macomb County and SDA that Rich Roth, the reviewer of the previous plan will be leaving the FEMA offices in the next few weeks. However, under the latest grant agreement, the Michigan State Police (MSP) Emergency Management Division, and Mike himself, will therefore become the reviewers of the updated plan. This may provide some flexibility on the review period. After State and FEMA approval, the county will adopt the plan, and then the plan will be distributed for adoption at the community level. SDA's role ends at adoption of the plan by the State and FEMA Region 5.

Update & Coordination Process

SDA will submit monthly status reports. The status reports will be simple and will outline actions to date, proposed actions for accomplishment in next reporting period, and problem areas. All meetings to be scheduled and documents to be published will be coordinated through Macomb County Office of Emergency Management (OEM) prior to release.

Hazard Mitigation Meeting Minutes May 21, 2004 Page 2

Schedule

Pete Locke stated that he would set up a subcommittee within their LEPC committee. This new subcommittee will address issues pertaining to hazard mitigation. A draft work plan schedule was presented by SDA and agreed upon by Mike and Pete that it had realistic deadlines. Both Mike and Pete felt the schedule kept the plan ontrack and moving in the right direction.

Article

SDA proposed that a quote from a county official be included in the article stating the county's support of the hazard mitigation plan efforts. Macomb County will prepare a statement to be added to the draft article. Macomb County will handle any telephone calls from the public regarding the hazard mitigation plan, the public meetings, and public input. Information provided by the public will be documented and utilized in the plan when necessary. The article will be released in the following publications: The Macomb Daily, The Voice News, Detroit Free Press, and The Detroit News. The intended release date for the article is two weeks (June 7, 2004) prior to the first scheduled public meeting.

Public Meetings

Letters will be sent to the communities identifying dates, times, and locations of public meetings will be issued between June 14 and June 18. The townhall meetings will be held between the dates of June 22 and June 30. The material to be presented at the meetings will be coordinated with the MSP Emergency Management Division for a regulation compliance review.

Web Site

A web site will be built and linked to the County site. Macomb County MIS will build the site based on site content to be supplied by SDA. Two forms were determined to be included in this site. One form will allow for the public to comment on the plan and another would allow for the public to document hazards they had experienced in the county. Both forms will be submitted electronically and the information compiled in a database format. Macomb County uses Dream Weaver to develop web pages. SDA will investigate its web development capabilities and recommend a solution. The proposed web address is www.macombcountymi.gov/OEM/hmp.

Community Letters

The same letter identifying the locations and dates of the public meetings will serve two other purposes. It will outline the purpose of the Hazard Mitigation Plan and the community governments' roles in participating in the Plan. The letter will also indicate a survey to be filled out and returned with information about the community and its hazards. The letter will be addressed to the mayor or top official in each community.

Very truly yours,

RE: Macomb County Hazard Mitigation Plan

LEPC Medical Sub-Committee meeting

JOB NO.: UI04007.OC

MEETING MINUTES

- ➤ The LEPC had their general meeting. One of the agenda items was a presentation by SDA on the Hazard Mitigation Plan (HMP). Charles Groover and Scott Wanagat presented what had been accomplished to date on the HMP and asked for feedback on mitigation measures and alternatives.
- ➤ Spalding DeDecker Associates (SDA) reviewed the public and community involvement processes. The committee agreed that SDA and the Macomb County Office of Emergency Management went above and beyond what was required to obtain public involvement.
- > SDA then presented the goals and objectives from the current HMP and reviewed suggested changes. One of the primary objectives to include in the Plan is a provision addressing the burying of power and utility lines. The committee agreed that enforcing local building codes would be the key to burying the lines.
 - A suggestion was also made that as old contracts expire, to negotiate this provision into new contracts with Edison.
 - Another suggestion made was to draft a local/county ordinance to be adopted/enforced in the communities.
 - It was also mentioned that the local building codes come from the State level and that some of these discussions could be taken up to the State. This could be looked at as a starting point for the utility burying provision.
 - The local fire services in the communities could also be used as a lobby to push this initiative. Many are forced to watch over a downed power line and the communities, due to outages, incur extensive amounts of overtime expenses.
- > Scott Wanagat presented and overview of the Top Ten hazards in Macomb County. He discussed their history and identified SDA's mitigation recommendations.
- ➤ At the completion of the presentation, the committee was asked to submit any other suggestions or ideas through the Macomb County OEM web site.

Radio Communications Information Update

This information is being provided as an update to the local jurisdictions and departments to help clarify several issues involving radio communications that are taking place in the county.

- Macomb County is beginning to implement their 800 MHz radio project with Motorola and the State of Michigan. Currently have \$13.2 million project funded by the County Board of Commissioners. This amount is for the necessary infrastructure to add 9 towers to the State's system and to provide the necessary radio equipment for the Sheriff's Department only. Currently in the process of negotiating leases with local jurisdictions to provide for the nine additional towers within their communities.
- 2. 2004 State Homeland Security Grant funding allocations have been distributed to local departments through Macomb County Emergency Management. Grant guidelines allow for the purchase of radio communications equipment. Equipment may be for UHF, VHF, 800 MHz, etc.
- City of Warren has received a COPS grant from the Department of Justice for approximately \$8 million for radio interoperability. Of this amount \$1 million has been allocated for the purchase of 800 MHz radio equipment for Macomb County jurisdictions and the three private EMS agencies. Distribution of this money/equipment is not finalized. Grant dollars must be spent on 800 MHz radio equipment to be compatible with the State and the City of Warren systems. Local jurisdictions accepting this grant funding must provide 25% match.
- 4. Macomb County Office of Emergency Management requested a \$6 million appropriation through Congress for 800 MHz radio equipment for the local jurisdictions. Current recommendation awaiting final approval is for approximately \$1 million. Again from this appropriation, jurisdictions will receive radio equipment for the 800 MHz system.

Based on this information, it is up to each agency/jurisdiction to decide what type of radio equipment they would like to purchase and/or obtain through the various grants, if at all. Currently, the State's has stated verbally that for radios on their system, that are not used for daily communications, they will not charge the State's standard \$200 a year fee per radio.

As mentioned above, it is our plan that each jurisdiction in the county will receive or be offered some type of 800 MHz radio equipment through items #3 & 4. Each jurisdiction must decide whether or not they want to maintain their current radio system and use these 800 MHz radios for large scale and/or mutual aid events or switch over to the State's 800 MHz system completely. We are only providing this information so that you are aware of the various radio equipment procurements that are being planned.

If you have any further questions please feel free to contact our office at 469-5270.
